THE BIG FREE FAIR

**COLE 8**

The Standardized Car

## AT THE Kansas State Fair

A Cole 8, just like the one that defeated the Empire States Express, New York's fastest passenger train, in a brush over the motor way East of Buffalo, N. Y.—an exact duplicate of the Cole 8 that beat the time of the Denver and Rio Grande passenger train between Denver and Glenwood Springs over some of the most hazardous mountain roads in America—a replica of the privately owned Cole 8 in which Edgar W. Finn, of Babylon, L. I. developed a speed range of from 1 1/2 to 74 miles an hour on a trial sprint over the motor parkway at Long Island N. Y.—is on view daily in the Automobile Exhibit at the Kansas State Fair.

See it. Let our representative tell you about it. Examine the motor, the unique Cole direct drive, the helical bevel gears, the dependable lighting, ignition and starting system—the one that starts with the touch of a finger.

And be sure and get a copy of our complimentary booklet—"Why an 8"—which reveals the secret of the multiple cylinder principle that is revolutionizing the motor car industry.

### SUES W. R. CARRIE

Boy Claims He Was Injured by Defendant's Automobile.

Claiming that he suffered permanent injuries as the result of being hit by an automobile driven by Starling, 18 years old, through his father, Dee Starling, has brought suit for \$16,065 damages against W. R. Carrie, president of the Topeka Cemetery association.

Starling claims in his petition which has been filed in the district court that he was hit by Carrie's auto as he was riding north on his bicycle at the corner of Locust street and Tenth avenue, August 5. The boy states in his petition that Carrie was driving at an excessive rate of speed and made no attempt to keep from hitting him. He says that he suffered severe bruises on his lower ribs, that his right leg and right arm were severely bruised and lacerated, and that he suffered permanent internal injury in the form of a rupture in the right groin.

Young Starling asks the court to grant him \$15,000 general damages, \$1,000 exemplary damages, \$25 for damage to his bicycle and \$25 for physician's fees, and \$15 for a truss.

### AUTO ROADS ARE FINE

Nothing to Keep Motorists From Coming to the Fair.

There is no reason why hundreds of motorists from all parts of eastern Kansas should not come to the big free state fair this week. The roads never were in better shape, considering the week-end rains.

J. M. Leeper, who drove three cars from Kansas City to Topeka Saturday, following the big rain of Friday night, said that the highways were smooth and in excellent condition.

Today roads radiating in all directions from Topeka are just right. Automobiles and motorcycles can travel for many miles without even seeing the trace of a rut. There are a few exceptions, a very few, and these are all on side roads and only a few joy riding parties have been caught there.

**German-Americans Held Loyal.**  
St. Joseph, Mo., Sept. 13.—The ninth annual convention of the Missouri German-American alliance convened today and in its opening address Dr. Charles Weinburg of St. Louis, state president, declared that while the sympathies of the members are with Germany in the European war their loyalty to the United States is not to be questioned.
